

MIRATECH's Platforms, Skid Assemblies, & Ladders

Quality Built and Performance Proven!

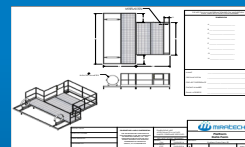

MIRATECH is leading the way in custom solutions ...because performance matters!

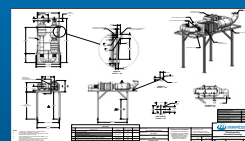

MIRATECH is known for providing turnkey solutions to fit any application or need from inlet to rain cap. When modular systems of platforms, skid assemblies, and ladders are needed, MIRATECH designs, engineers, and fabricates specifically to meet each customer's unique application and/or workspace requirements. These modular units are designed for gas compression, energy, power generation, environmental, and industrial projects throughout the world.

- Engineering expertise and in-house design
- Turnkey solutions
- End-to-end project management support
- Designed specifically to meet each customer's unique application and/or workspace requirements
- Custom fabrication capabilities and modular systems
- Designs take into account resonance and vibration from dynamic machinery forces
- Mounting brackets for cooler platforms accommodate 8" to 84" catalyst/silencer housings and come in a variety of configurations

ADVANCED DESIGN CAPABILITIES

MIRATECH is dedicated to solving problems with custom solutions, based on one-of-a-kind needs. No project, challenge, or configuration is too large or too small. Our team specializes in understanding the customer's specific needs clearly, then designs, engineers, manufactures, and delivers a total emission or acoustic turnkey solution that fits each unique need. Simply put... MIRATECH's team provides **innovative design solutions that set new standards!**

WHY IT'S BETTER

Each modular system of platforms, skid assemblies, and ladders are designed and engineered by MIRATECH's dedicated in-house engineering experts. Each unit is constructed with the highest quality in mind which balances stiffness, steel mass, and cost while avoiding resonance and vibration in the design. With hundreds of thousands of installations, MIRATECH has become known for **its proven performance and reliability!**

ENGINEERED SOLUTIONS

Every customer's application is unique. Thus, MIRATECH's expert engineering and project management teams are available to custom design and to support in every step of a project to ensure each customer's requirements are met.

FULL SUPPORT CLOSE TO HOME

Technical services and training provided by MIRATECH, along with field service from authorized MIRATECH representatives, ensures prompt, reliable product support is just a phone call away from anywhere in the world.

NEED EMISSIONS AND ACOUSTIC SOLUTIONS? CONTACT MIRATECH!

For more than 20 years, MIRATECH has been at the forefront in helping industries address emissions and acoustic standards. Whatever your emissions or acoustic needs may be, count on MIRATECH for superior solutions. Just give us a call – or visit our website: **www.miratechcorp.com**.
